

ZixMail®

Desktop email encryption

Who uses ZixCorp Email Encryption Services?

- Federal banking regulators, including FFIEC
- More than 30 Blue Cross Blue Shield organizations
- Health insurers protecting data for more than 70 million people
- More than 1,200 U.S. hospitals
- More than 1,600 U.S. financial institutions

Benefits:

- Fast, easy to install and simple to use
- Use with your current email system
- Automatic public key exchange through *ZixDirectory*®
- User-controlled operation
- Only the intended recipient can open the encrypted email

Features:

- Time-stamping and authentication provide irrefutable proof of delivery and receipt
- Secure message storage
- Fully integrated versions for *Microsoft Outlook*®
- Reinforcement of your corporate branding
- Integration with *ZixPort*® for send-to-anyone capability

For the nation's most influential institutions, *ZixCorp*® Email Encryption Services are an important tool in the protection of sensitive data. Leading healthcare, financial, government and insurance organizations have turned to ZixCorp to help them meet mandatory regulatory requirements and protect customer privacy in all their email communications.

As part of ZixCorp Email Encryption Services, ZixMail provides desktop email encryption that includes automated key management and delivery to anyone, anywhere through a secure web portal. It can be used with any corporate or web-based email system, and optional plug-ins are available for full integration with *Microsoft Outlook*®.

Send-to-Anyone Security

ZixMail makes it easy to securely send and receive confidential information. Encrypted messages are delivered using your existing email address, and a single ZixMail client can support multiple email addresses. ZixMail also provides time stamping and authentication for irrefutable proof of delivery and receipt.

System Requirements:

- Windows 7 / XP / Vista
- 64MB RAM

About Zix Corporation

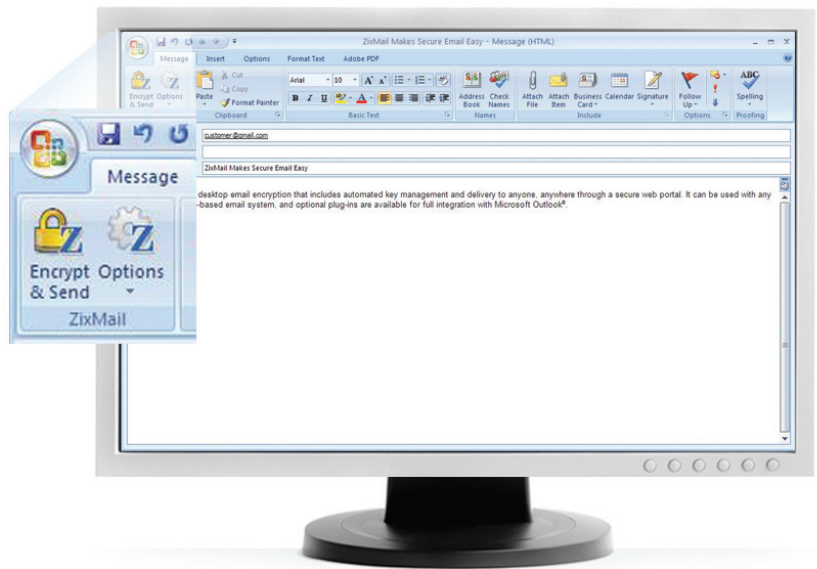

Zix Corporation (ZixCorp) provides the only email encryption services designed with your most important relationships in mind. The most influential companies and government organizations use the proven *ZixCorp*® Email Encryption Services, including WellPoint, the SEC and more than 1,200 hospitals and 1,600 financial institutions. ZixCorp Email Encryption Services are powered by *ZixDirectory*®, the largest email encryption community in the world. The tens of millions of ZixDirectory members can feel secure knowing their most important relationships are protected.

For more information about ZixMail, call toll-free 866-257-4949, email sales@zixcorp.com or visit www.zixcorp.com.

If your recipient is not a ZixCorp customer, ZixMail automatically sends your email to *ZixPort*®, a secure messaging portal that can be used to deliver secure email to any address. ZixMail comes with full support for *ZixMessage Center*™, a ZixCorp-branded portal. You can also purchase your own branded ZixPort portal to reinforce your corporate identity. This is an excellent marketing tool that underscores your company’s commitment to securing personal and private information.

Outlook Plug-ins

For Microsoft Outlook users, ZixCorp provides a special ZixMail plug-in so you can send and receive encrypted email without ever leaving Outlook. The plug-in integrates the ZixMail functionality directly into Outlook’s toolbar. The simple click of a button is all it takes to encrypt or decrypt a message.

Automated Key Management

ZixMail takes care of the most complicated aspect of using email encryption – key management. With ZixMail, all key management is handled through *ZixDirectory*®, ZixCorp’s hosted public key repository. Tens of millions of members are included in ZixDirectory, allowing ZixMail users to automatically send and receive encrypted emails from other ZixMail or *ZixGateway*® customers. No key set-up or exchange is necessary.
